## THIS IS OUR CORE VOCATION-

to enable community and church leaders and change makers  
to insert themselves deeply in local contexts, to read their context well  
to reflect theologically and Biblically  
and to construct ministry responses that will bring healing and change

Our training supports people to be hope-fully present  
in the real life situations of everyday

## OUR TARGET AUDIENCE

is community and church leaders, spiritual leaders, non-profit leaders, business leaders,  
public servants, parents, care-givers and others

who are committed to healthy communities  
and want to be equipped for more effective community and ministry practice

## OUR TRAINING IS DESIGNED TO PREPARE LEADERS

1. To address the challenges faced in their communities
2. To accompany communities in ways that will address the deeper causes of some of the challenges
3. To help communities analyse their own situations
4. To help communities imagine new and preferred realities for themselves
5. To accompany communities in appreciating, retrieving, mobilising and optimising their own assets
6. To help facilitate locally owned ministry practices, processes and programmes that will construct new realities
